MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This management's discussion and analysis should be read in conjunction with the unaudited consolidated interim financial statements and accompanying notes (the "Interim Financial Statements") of Liquor Stores Income Fund (the "Fund") for the three and six month periods ended June 30, 2005 as well as the audited consolidated financial statements and accompanying notes of the Fund for the initial period from August 10, 2004 to December 31, 2004, which includes business operations from September 28, 2004 to December 31, 2004. Results are reported in Canadian dollars unless otherwise stated and have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). Certain dollar amounts have been rounded to the nearest hundred thousand dollars, while other amounts have been rounded to the nearest thousand dollars. References to notes are to the notes to the Interim Financial Statements of the Fund unless otherwise stated.

This Management Discussion and Analysis is dated August 11, 2005.

OVERVIEW OF THE FUND

Issuance of Fund Units and Acquisition

The Fund is an unincorporated open ended, limited purpose trust established under the laws of the Province of Alberta pursuant to a Declaration of Trust dated August 10, 2004.

The Fund commenced business operations on September 28, 2004, when it completed an initial public offering (the "IPO") of 4,300,000 trust units ("Fund Units"), at a price of \$10 per unit, for aggregate gross proceeds of \$43,000,000. The costs of issuance of the units were \$5,185,828 resulting in an addition to Unitholders Equity of \$37,814,172. Concurrent with the closing of the IPO, the Fund used the proceeds from the IPO to acquire a 50.6% indirect interest in Liquor Stores Limited Partnership ("Liquor Stores LP") and Liquor Stores LP used such net proceeds and funds from the new credit facilities to acquire the net assets (the "Acquired Business") of The Liquor Depot Corporation ("Liquor Depot") and Liquor World Group Inc. ("Liquor World") and other wholly owned subsidiaries or companies that were under common control (collectively, the "Vendors"). The capital contributed by the Vendors is represented by the Subordinated LP Units and Exchangeable LP Units more fully described in Note 13 of the December 31, 2004 audited consolidated Financial Statements of the Fund.

On March 2, 2005, the Fund completed a private placement of 1,830,000 Fund Units at \$16.40 per unit for gross proceeds of \$30,012,000 (note 3) and increased its interest in Liquor Stores LP to 59.34%. The cost of the new issue was \$1,341,536, and the net proceeds of \$28,670,464 were used to repay bank indebtedness, to acquire 13 stores and for general corporate purposes. The purchase price of the assets of the 13 stores is allocated as follows:

Property and equipment	\$ 3,034,208
Goodwill	<u>7,473,665</u>
	10,507,873
Working capital	\$ <u>3,518,499</u>
Cash Paid	<u>\$14,026,372</u>

The Fund Units trade on the Toronto Stock Exchange under the symbol LIQ.UN.

Non-GAAP Measures

References to “EBITDA” are to earnings before interest, income taxes, depreciation and amortization and references to “distributable cash” are to cash available for distribution to Unitholders in accordance with the distribution policies of the Fund. Management believes that, in addition to income or loss, EBITDA is a useful supplemental measure of performance and cash available for distribution before debt service, changes in working capital, capital expenditures and income taxes. Specifically, management believes that EBITDA is the appropriate measure from which to make adjustments to determine the distributable cash of the Fund. Distributable cash of the Fund is a measure generally used by Canadian open-ended trusts as an indicator of financial performance. As one of the factors that may be considered relevant by prospective investors is the cash distributed by the Fund relative to the price of the Units, management believes that distributable cash of the Fund is a useful supplemental measure that may assist prospective investors in assessing an investment in the Fund.

EBITDA and distributable cash are not earnings measures recognized by GAAP and do not have standardized meanings prescribed by GAAP. Investors are cautioned that EBITDA and distributable cash should not replace net income or loss (as determined in accordance with GAAP) as an indicator of the Fund's performance, of its cash flows from operating, investing and financing activities or as a measure of its liquidity and cash flows. The Fund's methods of calculating EBITDA and distributable cash may differ from the methods used by other issuers. Therefore, the Fund's EBITDA and distributable cash may not be comparable to similar measures presented by other issuers.

Earnings from operations for purposes of disclosure under “Second Quarter Operating Results” has been calculated as described below. In the case of the Fund, earnings from operations have been derived by adding interest expense, income tax expense, amortization of property and equipment, intangibles and pre-opening costs and non-controlling interest to net earnings for the period. In the case of Liquor Depot and Liquor World, earnings from operations have been derived by adding amortization expense, charitable donations, management salaries to directors, officers and shareholders, interest expense, income tax expense and non-controlling interest to the net income for the period and subtracting from the resulting total income taxes recovered and income arising from subsidiaries accounted for on an equity basis.

Earnings from operations as so calculated is not a measure recognized by GAAP and does not have a standardized meaning prescribed by GAAP. Investors are cautioned that earnings from operations as so calculated should not replace net income or loss (as determined in accordance with GAAP) as an indicator of the Fund's performance, of its cash flows from operating, investing and financing activities or as a measure of its liquidity and cash flows. The Fund's method of calculating earnings from operations as so calculated may differ from the methods used by other issuers. Therefore, the Fund's earnings from operations as so calculated may not be comparable to similar measures presented by other issuers.

Basis of Management’s Discussion and Analysis (“MD & A”)

To provide more meaningful information, the following MD & A refers to the Second Quarter and year to date operating results of the Fund compared to the results for the Vendors for similar operating accounts combined for the Second Quarter 2004 and year to date 2004 (See “Non-GAAP Measures” above). It is management’s belief that charitable donations and management salaries and bonuses incurred by Liquor Depot and Liquor World are not relevant when compared to the Fund’s operations because of differences between the structure and policies of the Fund and those of the Vendors.

The Business of the Fund

The Fund is the largest liquor store retailer in Alberta by number of stores and the second largest by revenue. The Fund currently operates 66 stores, 51 of which are located in or near the urban centres of Calgary and Edmonton, and three of which are located in British Columbia.

The Province of Alberta is the only province in Canada that has a fully privatized retail distribution system for adult beverages. The Province of British Columbia’s model for liquor distribution is a blend of private and government operated retail outlets.

Distributable Cash and Cash Distributions

The Fund's policy is to distribute annually to unitholders available cash from operations after cash required for capital expenditures, working capital reserve, growth capital reserve and other reserves considered advisable by the Trustees of the Fund. The policy allows the Fund to make stable monthly distributions to its Unitholders based on its estimate of distributable cash for the year. The Fund pays cash distributions on or about the 15th of each month to Unitholders of record on the last business day of the previous month.

The following table summarizes the distributions for the six month period ended June 30, 2005:

Distributions are paid on Fund Units, Liquor Stores LP Exchangeable LP Units and Liquor Stores LP Subordinated LP Units. As of June 30, 2005 the following number of units were outstanding:

Fund Units (note 6)	6,130,000
Liquor Stores LP Exchangeable LP Units (note 7)	2,075,000
Liquor Stores LP Subordinated LP Units (note 7)	<u>2,125,000</u>
	<u>10,330,000</u>

During the six month period ended June 30, 2005, the Fund declared distributions of \$0.51236 per Fund Unit to Unitholders. The distributions in the second quarter of 2005 were funded from cash flow generated from operations. The Fund's IPO prospectus contemplated monthly distributions of \$0.0833 per unit or \$1.00 per year in aggregate. The Fund increased its annual distribution rate by \$0.075 per unit from \$1.00 to \$1.075 (\$0.08958 per month), commencing with the distribution paid on June 15, 2005 to Unitholders of record on May 31, 2005.

The Fund reviews its distribution policy on a periodic basis.

Management estimates that the portion of distributions that will be tax-deferred to Unitholders in calendar 2005 is approximately 25% to 30%.

Distributable cash per unit (Fund Units, Exchangeable and Subordinated LP Units)

The following table summarizes the distributable cash of the Fund for 2005 and from the inception of the Fund on August 10, 2004, which includes the results of operations from September 28, 2004 to June 30, 2005. The Fund views distributable cash as an operating performance measure. The Fund's purchase of property and equipment, required to maintain its existing stores, are minimal and the Fund distributes a significant portion of its earnings, on an annual basis, once adjusted for non-cash items. Therefore the Fund has selected net earnings as the basis for the calculation of distributable cash.

In order to provide more meaningful information to the reader, the following Management's Discussion and Analysis will compare the results of the Fund's operations for the second quarter of 2005 to the Vendors' second quarter results for 2004.

Second Quarter Sales

Second quarter sales increased to \$38.5 from \$29.8 million when compared to the same period in 2004, although same store sales (stores open for a full year when compared to another quarter) declined from \$29.7 to \$28.4 million. Same store sales for the second quarter of 2005 were negatively impacted by the timing of the Easter Holiday, which fell into the first quarter of 2005 and in the second quarter of 2004. Management believes that other factors that contributed to the decline in same store sales include the continued effect of a variety of factors such as: the implementation of a more stringent discount and credit policy; cancellation of a third party customer affinity program; increased competition at some locations; and the impact of no 2004-2005 NHL season.

For the third consecutive quarter, same stores are being operated more profitably and contributing more to distributable cash. Over the last nine months same stores have contributed an additional \$1,627,601 to distributable cash as indicated by the table below. Management expects this trend to continue throughout the balance of 2005.

Same Stores	Fund Total Q4 2004 & Q1-Q2 2005	Vendors Total Q4 2003 & Q1-Q2 2004	Difference
Sales	\$81,505,185	\$84,750,083	\$(3,244,898)
COGS	<u>63,254,305</u>	<u>67,230,931</u>	<u>(3,976,626)</u>
Margin	18,250,880	17,519,152	731,728
Operating Costs	<u>8,869,199</u>	<u>9,765,072</u>	<u>895,873</u>
Total	<u>\$9,381,681</u>	<u>\$7,754,080</u>	<u>\$1,627,601</u>

Second Quarter Cost of Sales and Gross Margin

Gross margin increased by approximately \$2.34 million from \$6.2 million to \$8.6 million or 38%, when compared to the same period in 2004. The gross margin increase was the result of a 29% increase in sales and an increase in gross margin percentage of 1.3%. Factors that contributed to the increase in gross margin included a more stringent credit and discount policy, elimination of a third party affinity program and the harmonization of retail pricing.

Second quarter cost of sales increased from approximately \$23.5 million to \$30 million, when compared to the same quarter in 2004.

New stores and stores that were open for less than 12 months contributed an additional \$2.2 million to gross margin on \$10.2 million of sales in the second quarter of 2005.

Combined Administrative, Operating and Acquisition and Store Development Expense

Administrative; Operating; and Acquisition and Store Development expenses increased by approximately \$1.3 million from approximately \$4.1 million to \$5.3 million when compared to the same period in 2004. The components of the increased administrative and operating costs are as follows:

Additional expenses relating to a store not open for the entire second quarter of 2004 and new stores	\$1,191,714
Savings obtained on same store operating costs	(405,238)
Additional administrative expenses	<u>531,351</u>
Net increase in administrative and operating expenses	<u>\$1,317,827</u>

Administrative expenses increased in the second quarter of 2005, due to an increase in the number of stores operated by the Fund to 65 when compared to the same quarter in 2004 where the Vendors operated 45 stores, public company costs including non-recurring costs relating to acquisitions, bonuses being accrued in 2005 that were not accrued in the comparable period in 2004, increased insurance costs and increases in other operating costs relating to additional stores. Payroll costs also increased as a consequence of annual salary increases and the addition of seven new permanent employee positions in the first quarter of 2005 to support the additional stores and the Fund's growth plans.

Earnings from Operations (as defined)

Earnings from operations (as defined under Non-GAAP Measures above) increased by approximately \$1,029,614 from \$2.2 million to \$3.2 million or 47.2%, when compared to the same period in 2004. The increase in earnings from operations resulted from higher gross margin, the addition of new stores, and the savings achieved through synergies on combination of Liquor World and Liquor Depot.

The second quarter of 2005 showed an improvement over the previous quarter. The first quarter is historically the industry's weakest in terms of sales, earnings and EBITDA and the Fund's results to date are following this pattern. Historically sales, earnings and EBITDA improve each quarter throughout a year with the fourth quarter producing the strongest results and the first and the second quarters being the weakest quarters. Results from stores open at the beginning of the year continue to be slightly better than managements' expectations.

Acquisitions primarily occurred in March and continue to have a positive impact on cash flow. Two new locations opened in May in British Columbia have had a small negative impact on contribution margin for the second quarter. These results are expected for new locations, as they typically require a few months to become established.

LIQUIDITY AND CAPITAL RESOURCES

Distributable Cash and Cash Distributions

The Fund's policy is to make stable monthly distributions to its Unitholders based on its estimate of distributable cash for the year. It has a policy to pay cash distributions on or about the 15th of each month to Unitholders of record on the last business day of the previous month.

On February 14, 2005 the Fund announced that it intended to increase its annual distribution by \$0.075 per unit from \$1.00 to \$1.075 (\$0.08958 per month) commencing with the distribution to be paid to unitholders of record on May 31, 2005, subject to the completion of the acquisition of 10 additional stores announced at that time. These acquisitions have now been completed and the Fund increased distributions as intended.

Credit Facilities

In September 2004 the Fund established credit facilities with a Canadian chartered bank. These credit facilities consisted of an \$18 million demand operating loan, a \$7.5 million committed non-revolving capital loan and a \$10 million committed non-revolving acquisition loan. As a result of the various acquisitions during the year the \$18 million demand operating loan was increased to \$24 million. The \$10 million committed non-revolving acquisition loan was unutilized as of June 30, 2005.

As of June 30, 2005, total indebtedness under all credit facilities has decreased to \$7.5 million from \$18.8 million as of December 31, 2004, and cash and cash equivalents have increased to \$266,000 from \$179,000 as of December 31, 2004.

Capital Expenditures

Between February 18, 2005 and March 14, 2005 the Fund purchased the assets of 13 retail liquor stores (note 3) with cash from existing credit facilities and the proceeds from the issuance of Fund Units (note 6). In addition, two new stores, Liquor Depot Kamloops and Liquor Depot Richmond, opened in British Columbia on May 6, 2005. On July 12, 2005, the Fund purchased the assets of a retail liquor store located in Calgary.

Interest Rate Risk and Sensitivity

The Fund is not significantly impacted by interest rate changes. The Fund's bank indebtedness and long-term debt (note 5), bear interest at floating rates based on the bank's prime rate or at short term banker's acceptance rates, thus exposing the Fund to some interest rate fluctuations. During the period, in connection with acquisitions, the Fund increased the amount available under its operating line from \$18 million to \$24 million and as of June 30, 2005, has total credit facilities of \$41.5 million. Excess funds from the March 2, 2005 issue of Fund Units will be used to fund future acquisitions and have temporarily reduced the amount of debt outstanding. A 1.0% increase in interest rates would have an impact of less than \$243,000 on distributable cash based on \$24.3 million of debt outstanding on average throughout the year. Based on operating 66 stores, management estimates that the Fund would have approximately \$24.3 million of debt (\$16.7 million of which would be operating debt) on average outstanding throughout a year.

Contractual Obligations

The table below sets forth the contractual obligations of the Fund as of June 30, 2005 due in the years indicated, which relate to various premises operating leases and the \$7,500,000, non-revolving loan that is repayable in January of 2007.

Off-Balance Sheet Arrangements

The Fund has not entered into any off-balance sheet arrangements.

Critical Accounting Estimates

Because of the nature of the Fund's business and assets, management believes that there are no critical accounting policies that rely on estimates.

Changes in Accounting Policies

Management is not aware of any recent accounting pronouncements or developments that will affect the Fund's financial statements. Management will continue to monitor and assess the impact of accounting pronouncements on the financial statements of the Fund as they become available.

Financial Instruments

Due to the nature of its business, the Fund does not engage in activities or hold assets that would require the Fund to acquire financial instruments for hedging or speculative purposes. The financial instruments that are held by the Fund consist of accounts receivable, bank indebtedness, accounts payable and accrued liabilities and distributions payable. The financial instruments are held in the normal course of operations and as a result no significant accounting policies need to be adopted or assumptions made in reporting the Fund's financial instruments.

Transactions with Related Parties

During the three and six months ended June 30, 2005, the Fund incurred professional fees of \$31,699 and \$100,164 respectively to a law firm where one of the partners is a director of a subsidiary of the Fund. The Fund also leases a warehouse from a company controlled by a director of a subsidiary and one retail location is leased from a company that two directors of a subsidiary are shareholders. Total lease payments under these agreements were \$40,596 (see note 4). Included in accounts payable are accrued liabilities of \$9,487 relating to these transactions.

The Fund has a conflict of interest policy that requires the disclosure of potential conflicts and excludes persons with a material conflict of interest from any related decision making process.

Outlook

Management believes there will continue to be a consolidation trend in the industry. The Fund expects continued sales and earnings growth in 2005 due to the accretive nature of acquisitions to date and the Fund's program of acquisition and new store development.

Additional information

Additional information relating to the Fund, including the Fund's Annual Information Form and other public filings is available on SEDAR (www.sedar.com) and on the Fund's website at www.liquorstoresincomefund.com.

RISK FACTORS

As at June 30, 2005, there are no material changes in the Fund's risks or risk management activities since the time of the initial public offering. The Fund's results of operations, business prospects, financial condition, cash distributions to Unitholders and the trading price of the Fund's units are subject to a number of risks. These risk factors include: risks relating to government regulation; competition; Liquor Stores LP's ability to locate and secure acceptable store sites and to adapt to changing market conditions; risks relating to future acquisitions and development of new stores; dependence on key personnel; supply interruption; reliance on information and control systems; absence of an operating history as a public company; dependence on capital markets to fund Liquor Stores LP's growth strategy beyond its available credit facilities; dependence of the Fund on Liquor Stores LP; leverage and restrictive covenants in agreements relating to current and future indebtedness of Liquor Stores LP; restrictions on the potential growth of Liquor Stores LP as a consequence of the payment by Liquor Stores LP of substantially all of its operating cash flow; income tax related risks; and the Vendors' right to approve certain material transactions. For a discussion of these risks and other risks associated with an investment in Fund Units, see "Risk Factors" detailed the Fund's Annual Information Form, which is available at www.sedar.com.

The accounting principles and methods of computation adopted in these financial statements are the same as those of the audited financial statements for the year ended December 31, 2004. However, these interim consolidated financial statements do not include all information and footnote disclosures required under Canadian GAAP for annual financial statements. 10 Seasonal nature of the business

The Fund's results for the second quarter of 2005 are not necessarily indicative of the results that maybe expected for the full year due to seasonal variations in sales levels. The Fund historically experiences higher sales in the second quarter than the first quarter, while the second quarter typically experiences lower sales levels then the third and fourth quarters due to seasonal shopping patterns. Occupancy related expenses; general and administrative expense, amortization and interest expense remain relatively steady throughout the year.
